JANUARY 2024 EDITION

DIVINE Restoration

Dear Tribe Members

It is my honor and my warm delight to welcome you all to the year 2024. We thank God for the milestones reached in 2023 and trusting Him for greater impact in the assignment He has committed to this commission in this year that's filled with supernatural promises. At the leadership level, we have decided to consecrate the first 21 days towards fasting and thanksgiving prayers to lay a firm foundation for the rest of the year. Please plan to join us at the altar everyday at 12noon U.S EST, until the 22nd of January 2024 to fellowship and pray together.

The Lord has given us a theme for 2024, promising us divine restoration. We intend to review this in great detail in the months coming up, so we can immerse ourselves in the experience of restoring everything the enemy has taken from us, our families, our businesses and our respective marketplace ministries.

Our burden remains the same, activating those sent into the marketplace in line with the great commission and equipping them to function as five-fold ministers in the various spheres of influence in society. We believe very strongly that the revival God is bringing will go beyond the four corner walls of the church and will more than likely have greater impact in the market places of society. This applies especially to the countries that we have extended "the tribe" into within the great continent of Africa. This is also very significant for us as Africans; the bearers of the last wine of revival

I also want to adjure you all to make use of the resources within the tribe. We have the industry-focused egroups where business professionals within an Industry meet twice a month to learn from each other and get exposed to industry trends across countries. We have breakthrough centers where we meet in person for physical prayer meetings within Nigeria, Ghana, Kenya & South Africa. If you'd like to open up a breakthrough center in your city & country, kindly reach out to the admin team. We only require two people to start a breakthrough center, and also, that you enroll in the free prayer training program we offer. We need more of such prayer centers to come up as we equip and empower marketplace ministers in the various countries we are in.

There are a few outreach ministries coming up which you can get involved in, such as the widow outreaches holding this month and next in Abuja & Accra respectively. We have in house volunteer departments you can partake in by contributing your time and skill to further our cause of activating and raising marketplace ministers. Some of those departments include the helps department, the kingdom Funders department, media department and the intercessory department. If you'd like to go beyond the regular meeting days and really get involved at the tribe, there is no better time to do it than now.

Finally, we have taken out the Wednesday discipleship meeting we used to have in 2023. That class will now hold as a segment of the 10hr prayer marathon on Thursdays between 8am and 10am U.S EST which is start time 1pm Ghana, 2pm Nigeria, 3pm South Africa & 4pm East African time.

Finally, let me use this opportunity to remind everyone to download our Prayer Watch application on the Apple Store and Play Store on Android. An effective prayer life is most important if you will step into divine restoration. I pray the Almighty not only restores all that you may have lost, but that He restores you seven-fold.

Welcome again to 2024! This is OUR Year!!!

DITCH THE NEW YEAR RESOLUTION!

Welcome to 2024!

No matter how 2023 was, I know you are fired up and ready to roll in this New Year. You are ready for the fresh start a new year signifies. One thing I'm sure you have done or about to do is write your new year resolutions. But before you buy into the fad and start scribbling down a list of things you would forget by February, here are some reasons you shouldn't...

1. It is often vague.

Most new year resolutions fail because the decision is not brought about by reflection and evaluation of what worked and didn't work in the life of the person. An evaluation is needed to know areas that need improvement in one's life and how the improvement will be achieved.

2. It is often brought on by pressure.

We've been told and conditioned to 'do this,' or 'do that.' New Year Resolution is expected to be written every new year so you feel pressured to do as society says. You forget that pressure does not always bring out the best in people.

3. It does not give room for growth

Writing a list of things to achieve without the process you will go through to get the desired result is a good indicator of the result of that task. To move from your undesired position to your desired position needs a growth process.

4. It involves negative motivation

You will agree with me that most new resolutions are written based on guilt or shame. For instance, you want to lose weight not because you want

to live a healthier life but because you don't like that you have become obese. So, you will rather drink slimming tea rather than stop eating junk food.

So, ditch the new year resolution!

This is what you should do instead, evaluate your life and make S.M.A.R.T (specific, measurable, achievable, relevant and time-bound) goals. Creating S.M.A.R.T goals will ensure you are learning and development will take place which will lead to growth i.e. your desired result.

In creating S.M.A.R.T goals, give room for flexibility, i.e. be open to new perspectives and information on how to go about them. In addition, be willing to modify goals in alignment with happenings in your life. This is what differentiates goals from new year resolutions.

Happy New Year!
